

# Interaction with other programmes

- **GODAE (CLS - Pierre-Yves)**
- **IGOS & NASA/NPOESS (CNES - Yves)**
- **EUROGOOS (SOC - Trevor Guymer)**
- **ESA -**
  - **ESTEC - “Innovative Altimeters Study” - Juan Guijarro**
  - **ESRIN - ENVISAT - Jerome Benveniste**
- **GMES (EC/ESA)**
- **Offshore Operators - (SOS - Workshop at OGP)**
- **WMO - Johannes Guddall (also MaxWave)**

# Broadening Participation

- **Are we missing any expertise in Europe?**
  - **New Techniques**
    - GPS Reflections (Starlab Barcelona, ESA/ESTEC)
  - **New applications**
    - Joint studies to map extreme wave characteristics with SAR data
    - Direct applications of Real Time Data (e.g. contributions to networks for storm surge monitoring)
  - **Local / Regional Applications**
  - **Land Applications**
    - River/lake levels, ...
  - **Ice Applications**
    - Sea ice edge / sea ice thickness mapping.

# Communication Issues

- **Is GAMBLE inclusive/open enough?**
  - **Should we be more pro-active in establishing a forum for discussion?**
- **Is the website performing satisfactorily?**
  - **Is the Design OK?**
  - **Are the mailing lists OK? (Does anyone use them?)**
  - **Is it easy to find the documents you need?**
  - **Should we have a “highlights” page?**
